Education

Dayananda Sagar College of Engineering

B.E in Computer Science and Engineering, CGPA: 8.84

Dec 2020 – Aug 2024

Bengaluru, Karnataka

Experience

Dukaan [🔗](#)

Apr 2022 – Jun 2022

Front-End Developer Intern

Bangalore, Karnataka

- Worked as a Front-End developer on the core product to develop new features and polish the user experience.
- Created over **20+** performant, responsive and reusable components from scratch.
- Rolled out new features for review plugin like filtering, sorting reviews, and pagination used by **over 400,000 stores**
- Integrated a plugin that allows merchants to showcase their Instagram posts and introduced custom galleries for it.
- Migrated store themes to a new architecture which **improved performance** and **reduced app size by over 30%**.
- Tech Stack used: **ReactJS, NextJS, Javascript, Nunjucks and SASS.**

Projects

Rapidashboard [🔗](#)

- A dashboard that is used to display users, news, and top users on the website.
- Configured **Static-Site-Generation** and **Server-Side-Rendering** on different pages to **improve the performance** and SEO of the application.
- Implementing a **state-management system** to persist states between components on different pages.
- Built using **ReactJS, NextJS, TypeScript.**

FireChat [🔗](#)

- Engineered a **real-time** chat application that enables users to communicate in public or through personal messages
- Integrated an **authentication** system that can be used to sign-up/login users. Implemented **routing** to redirect users after successfully logging in.
- Engineered the feature which enabled.
- Developed using **ReactJS, React router, Socket.io, Firebase, HTML, CSS.**

Mern-jwt-auth [🔗](#)

- Created a custom authentication and authorization template that can be used as a starter kit for all auth purposes
- Added features like access tokens and refresh token based authentication.
- Tech stack used: **ReactJS, NodeJS, ExpressJS, MongoDB, JWT**

Netflix Clone [🔗](#)

- Extracted the data for over **50+ trending shows/movies** using The movie database (tmdb)'s API.
- This project demonstrated the use of **React hooks, API calls, component-based styling.**
- Optimized the site for **100% responsiveness** in order to have the same experience on a wide range of devices.
- Assembled using **ReactJS, JavaScript, HTML, and CSS.**

Technical Skills

Languages: C++, JavaScript, Typescript.

Developer Tools: GitHub, Firebase, MongoDB, Postman.

Technologies/Frameworks: Git, ReactJS, NextJs, NodeJS, ExpressJS, Nunjucks, SASS, Unix.

Leadership / Extracurricular

Scaler Community

Sep 2021 – Nov 2021

Moderator

- Manage a community of 67,000+ students/experienced professionals along with my team. Interact with the community members, resolving technical doubts, organizing fun events/activities oriented towards learning.

Google Developer Student Club - DSI

Sep 2021 – Present

Member

- An online community of developers. Enables learning in-demand technologies through workshops and speaker sessions that are developed by google.

Achievements

- Solved over **400+** problems on **LeetCode** [🔗](#), **GeeksForGeeks** [🔗](#), **CodeChef** [🔗](#) and **HackerBlocks** [🔗](#).
- Achieved a global rank of **235 (top 5%)** in CodeChef starters 28.
